1. Product description

KEIM Lime Remover (Ätzflüssigkeit) is a pretreatment and cleaning agent based on silicic acid, which, when applied, reacts to form harmless compounds.

2. Field of application

Removal of sinter layers on new renders and cleaning of existing renders. Not for use on renders containing gypsum.

3. Product properties

KEIM Lime Remover (Ätzflüssigkeit) is completely neutralized when correctly used.

- Aqueous
- No solvents added

Material characteristics

- pH-value: \( \approx 1 \) (acidic)
- Density: 1.1 (g/cm³)

Color shade

Light pink, transparent

4. Application instructions

Dilution

<table>
<thead>
<tr>
<th>KEIM Lime Remover</th>
<th>Water</th>

</thead>
<tbody>
<tr>
<td>Exterior render:</td>
<td>1 l (0.3 gal)</td>
</tr>
<tr>
<td>Interior render:</td>
<td>1 l (0.3 gal)</td>
</tr>
</tbody>
</table>

In order to accelerate drying and carbonation, KEIM Lime Remover (Ätzflüssigkeit) should not be applied to the render before the surface has dried, at which point it should be brushed on appropriately diluted from bottom to top to saturate the surface. The reaction starts immediately and can be recognized by slight foaming. Treated surfaces then must be washed down with water. New render on interior walls don’t need to be washed down.

Pure lime renders of mortar groups P I-a and P I-b which harden only slowly by absorbing carbon dioxide may form new sinter layers and require a second application.

KEIM Lime Remover (Ätzflüssigkeit) may also be used as a cleaning agent for dirty areas of existing render. Due to its dirt content, any washing water from cleaning should be disposed of in accordance with local, state and/or federal regulations.

Waiting times

KEIM Lime Remover (Ätzflüssigkeit) may be applied once the render surface has dried, but at the earliest after one day. Lime renders (P I-a, P I-b) must be allowed to set for at least 4 weeks before a second application can be performed. A KEIM paint system may be applied once a further drying period has elapsed.

Consumption

Smooth exterior surfaces, one coat:
approx. 0.07 l/m² (2.4 fl oz per 10.8 sq ft)
Smooth interior surfaces, one coat:
approx. 0.05 l/m² (1.7 fl oz per 10.8 sq ft)

The stated consumption values are for guidance and depend on the type of application and the substrate. Exact consumption values can only be determined by applying trial areas on the structure to be coated.
Cleaning of tools
Clean with water immediately after use.

5. Packaging

5 l and 20 l (1.3 gal and 5.3 gal) jerry cans.

6. Storage

Shelf life is approx. 12 months in sealed container under cool, but frost-free conditions. Protect from heat and direct sunlight.

7. Hazardous substances

ordinance class

Xi Irritant
R 36/38: Irritating to eyes and skin.
S 26: In case of contact with eyes, rinse immediately with plenty of water and seek medical advice.
S 37/39: Wear suitable protective gloves and eye/face protection.
S 46: If swallowed, seek medical advice immediately and show this container or label.
S 51: Use only in well-ventilated areas.

8. Transport hazard class

Class: 8
Packaging group: II
UN No.: 1778

9. Disposal

EC Waste Code No. 06 01 99

Any residues must be emptied out of containers before recycling.

10. Safety instructions

Provide appropriate protection for surfaces which are not to be coated (e.g. glass, natural stone, ceramics etc.). Any splashes on surrounding surfaces or traffic areas must be rinsed off immediately with plenty of water. Protect the eyes and skin from splashes. Do not eat or drink during application. Keep out of reach of children.

The stated values and properties are the result of extensive development work and practical experience. Our recommendations for application, whether given verbally or in writing, are intended to provide assistance in the selection of our products and do not establish a contractual relationship. In particular, they do not release those purchasing and applying our products from the duty of establishing for themselves, with due care, the suitability of our products for the intended application. Standard building industry practices must be complied with. We retain the right to make modifications to improve the products or their application. This edition supersedes all earlier editions.
