

0503-0139_US

1. Identification

Product identifier

MASONRY SPACKLE

Recommended use of the chemical and restrictions on use

Use of the substance/mixture

Knife filler/ Surfacer

Details of the supplier of the safety data sheet

Company name:	KEIM Mineral Coatings of America,	
Address:	Inc 10615 Texland Boulevard, #600 Charlotte, NC 28273, USA	
Telephone:	1 704-588-4811	
Emergency phone number:	in US and Canada: 1 800 535 5053 (INFOTRAC)	

2. Hazard(s) identification

Classification of the chemical

29 CFR Part 1910.1200

This mixture is not classified as hazardous in accordance with Regulation 29 CFR 1910.1200(d). Label elements

Additional advice on labelling

The product does not require a hazard warning label.

Hazards not otherwise classified

Alkaline product. Avoid contact with skin, eyes and clothing. Handle in accordance with good industrial hygiene and safety practice.

The product contains: Titanium dioxide (IARC Group 2B). Due to the nature of the product, there is no exposure hazard from inhalation. Therefore, the product is not classified as a carcinogen.

3. Composition/information on ingredients

Mixtures

Chemical characterization

Purely mineral fillers, potassium water glass, pure acrylate emulsion

Hazardous components

CAS No	Components	Quantity
1317-65-3	calcium carbonate	50 - 75 %
13463-67-7	Titanium dioxide	< 5 %
14808-60-7	Quartz, silicium dioxide	< 1 %

Further Information

The exact percentage (concentration) has been withheld as a trade secret.

4. First-aid measures

Description of first aid measures

General information No

special measure necessary. 0503-0139_US

Show this safety data sheet to the doctor in attendance.

After inhalation

Take affected person into fresh air.

In the event of symptoms refer for medical treatment.

After contact with skin

Wash off with soap and plenty of water. Consult a doctor if skin irritation persists. Do not use solvents or thinners.

After contact with eyes

Rinse immediately with plenty of water, also under the eyelids, for at least 15 minutes. Seek medical treatment by eye specialist.

After ingestion

Rinse out mouth and give plenty of water to drink. Do not induce vomiting. Call a physician immediately.

Most important symptoms and effects, both acute and delayed

OSHA Hazard Communication: This material is not considered hazardous by the OSHA Hazard Communication Standard 29CFR 1910.1200.

Indication of any immediate medical attention and special treatment needed

Treat symptoms.

5. Fire-fighting measures

Extinguishing media

Suitable extinguishing media

Product itself does not burn. Fire-extinguishing activities according to surrounding building materials.

Specific hazards arising from the chemical

In case of fire formation of dangerous gases possible. (Carbon monoxide (CO), silicon dioxide) In case of fire and/or explosion do not breathe fumes.

Special protective equipment and precautions for fire-fighters

Use breathing apparatus with independent air supply.

Additional information

Fire residues and contaminated firefighting water must be disposed of in accordance with the local regulations.

6. Accidental release measures

Personal precautions, protective equipment and emergency procedures

Avoid contact with skin, eyes and clothing.

Ensure adequate ventilation. Keep away noninvolved persons.

Environmental precautions

No special measures required.

Methods and material for containment and cleaning up

Soak up with inert absorbent material (e.g. sand, silica gel, acid binder, universal binder). Shovel into suitable container for disposal.

Clean contaminated surface thoroughly.

No dangerous substances are released.

Reference to other sections

Information for disposal look up chapter 13.

7. Handling and storage

Precautions for safe handling

0503-0139_US

Advice on safe handling

Avoid contact with skin, eyes and clothing. Keep container tightly closed. Avoid formation of aerosolized spray mist. Keep a good ventilation and air-exhaust at the place of work.

Advice on protection against fire and explosion

Cool containers at risk with water spray jet.

Conditions for safe storage, including any incompatibilities

Requirements for storage rooms and vessels

Keep only in unopened original container. Keep in a dry, cool and well-ventilated place. Do not use aluminium containers.

Advice on storage compatibility

Do not store together with acids.

Further information on storage conditions

To be kept tightly closed, in a cool and dry place.

Keep from freezing. Protect from heat and direct solar radiation.

8. Exposure controls/personal protection

Control parameters

Exposure limits

CAS No.	Substance	ppm	mg/m³	f/cc	Category	Origin
1317-65-3	Calcium Carbonate Respirable fraction	-	5		TWA (8 h)	PEL
1317-65-3	Calcium carbonate (resp)	-	5		TWA (8 h)	REL
14808-60-7	Silica, crystalline (as respirable dust)	-	0.05		TWA (8 h)	REL
14808-60-7	Silica, crystalline - alpha-quartz (respirable fraction)		0.025		TWA (8 h)	ACGIH-2018
14808-60-7	Silica, crystalline quartz, total dust	-	(Z-3)		TWA (8 h)	PEL
13463-67-7	Titanium dioxide Total dust	-	15		TWA (8 h)	PEL
13463-67-7	Titanium dioxide		10		TWA (8 h)	ACGIH-2018

Exposure controls

Protective and hygiene measures

Do not inhale aerosolized spray mist.

Take off immediately all contaminated clothing.

Avoid contact with skin, eyes and clothing.

Eye/face protection

Eye wash bottle with pure water. Tightly fitting goggles.

Hand protection

Chemical-resistant gloves (EN 374) / NIOSH/MSHA approved Chemical protective gloves made of nitrile, nitrile/cotton, butyl or neoprene, with a minimum thickness of 0.7 mm, permeation time of approx. 480 minutes. Select the appropriate glove material adhering to the breakthrough time, permeation rate and the degradation.

Skin protection Long sleeved clothing. 0503-0139_US

Respiratory protection

Not required; except in case of aerosolized spray mist. Mask with filter Type P (EN 141), NIOSH/MSHA approved

9. Physical and chemical properties

Information on basic physical and chemical properties

Physical state:	Pasty
Color:	White
Odor:	Odorless
pH-Value (at 20 °C):	n.d.
Changes in the physical state Melting point/freezing point:	
Menting point/neezing point.	n.d.
Initial boiling point and boiling range:	n.d.
Flash point:	n.a.
Explosive properties	The product is not explosive.
Oxidizing properties	The product is not self-igniting.
Density (at 20 °C):	1.5 - 1.8 g/cm ³
Water solubility:	Miscible
Viscosity / dynamic:	Not determined

Other information

No data available * The values are for freshly produced material and m time.

10. Stability and reactivity

<u>Reactivity</u> Stable under normal conditions.

Chemical stability

Stability:

Stable

Stable under normal conditions.

Will not occur

Possibility of hazardous reactions

Hazardous reactions:

None under normal processing.

Conditions to avoid

Keep from freezing. Protect from heat and direct solar radiation.

Incompatible materials

Acids.

Aluminium

Hazardous decomposition products

No decomposition if stored and applied as directed.

11. Toxicological information

Information on toxicological effects

Route(s) of Entry

Skin and eye contact, inhalation and ingestion. 0503-0139_US

Acute toxicity

Based on available data, the classification criteria are not met.

Irritation and corrosivity

Based on available data, the classification criteria are not met.

Sensitizing effects

Based on available data, the classification criteria are not met.

Specific target organ toxicity (STOT) - single exposure

Based on available data, the classification criteria are not met.

Severe effects after repeated or prolonged exposure Based on available data, the classification criteria are not met.

Carcinogenic/mutagenic/toxic effects for reproduction

Based on available data, the classification criteria are not met.

No ingredient of this mixture is listed.

Titanium dioxide (CAS 13463-67-7) is listed in group 2B. Silica dust, crystalline, in the form of quartz or cristobalite (CAS 14808-60-7) is listed in group 1. No ingredient of this mixture is listed.

Carcinogenicity (OSHA): **Aspiration hazard**

Carcinogenicity (NTP): Carcinogenicity (IARC):

Based on available data, the classification criteria are not met.

12. Ecological information

Ecotoxicity No toxicological data available. Persistence and degradability No data available Bioaccumulative potential No data available Mobility in soil No data available

Other adverse effects

Slightly water hazardous.

Further information

Do not flush into surface water or sanitary sewer system.

13. Disposal considerations

Waste treatment methods

Advice on disposal Disposal in accordance with local regulations.

Contaminated packaging

Disposal in accordance with local regulations. Cleaning agent: Water

14. Transport information

US DOT 49 CFR 172.101	
Proper shipping name:	Not
Marine transport (IMDG)	regulated.
UN proper shipping name:	Not
	regulated.

0503-0139_US

15. Regulatory information

U.S. Regulations

National Inventory TSCA No information available.

State Regulations

Safe Drinking Water and Toxic Enforcement Act of 1986 (Proposition 65, State of California)

WARNING: This product contains the following chemical(s) known to the State of California to cause cancer, birth defects or other reproductive harm: Silica, crystalline (airborne particles of respirable size) (cancer).

16. Other information

Hazardous	Materials	Information I	Label (HMIS)

LD = Lethal dose

LC = Lethal concentration

EC = Effect concentration

IC = Median immobilization concentration or median inhibitory concentration

Other data

The information in this document is based on the present state of knowledge and is applicable to the product with regard to appropriate safety precautions.

The information describes exclusively the safety requirements for the product (s) and is based on the present level of our knowledge.

The delivery specifications are contained in the corresponding product sheet.

This data does not constitute a guarantee for the characteristics of the product(s) as defined by the legal warranty regulations.
